OVERVIEW

Tanzania is the land of safaris and this trip is an excellent choice, whether it is your first safari or your fiftieth.

Tanzania's prolific wildlife and stunning scenery make it one of our most sought after safari destinations. The Serengeti and Ngorongoro Crater are stars of the show and are rightly world famous as two of the best places on the planet to encounter 'the Big 5'. On this safari you will work your way through the major parks in Tanzania, staying in a combination of stylish tented camps and more remote and unique camps set up in key wildlife corridors. Departures from July to September will coincide with the migration, where over a million animals follow the rains. It is without doubt one of the greatest wildlife spectacles on earth!
